Retraction: Physiological basis and image processing in functional magnetic resonance imaging: neuronal and motor activity in brain

Rakesh Sharma^{1*} and Avdhesh Sharma²

* Correspondence: rpk1@columbia.edu

¹Departments of Medicine and Radiology, Columbia University, New York, NY 10032, USA
Full list of author information is available at the end of the article

Retraction

This article [1] has been retracted by the publisher because of significant overlap with figures from previously published work [2,3] without appropriate attribution or permissions. We were unable to contact the authors of the article, despite our best efforts. We apologise to all affected parties for the inconvenience caused.

Author details

**Submit your next manuscript to BioMed Central
and take full advantage of:**

- Convenient online submission
- Thorough peer review
- No space constraints or color figure charges
- Immediate publication on acceptance
- Inclusion in PubMed, CAS, Scopus and Google Scholar
- Research which is freely available for redistribution
